PROFILE

Front-End Developer | Computer Engineering Graduate
I build clean, responsive, and user-friendly websites using HTML, CSS, JavaScript, and React. My focus is on fast performance, cross-device compatibility, and modern design. I help clients turn ideas into functional web solutions and deliver projects on time with attention to detail.

WORK EXPERIENCE

IT HELPDESK (OJT)
Sutherland
2019 - 2019

- Negotiate contracts and complex real estate transactions
- Provide excellent customer service to clients
- Update and maintain client files
- Research and monitor the local real estate market
- Develop marketing campaigns for properties
- Utilize social media platforms to market properties
- Participate in open houses and home tours
